WHO IS ARTIFICIAL MAN- WHAT ARE "INTRONS

They are Manipulative Extraterrestrials who Jesus said will walk among us today.

They are the reasons why mankind is missing 97% of our original human DNA and why 85% of human beings today are positive for the Rhesus Monkey Protein factor = Rh Positive blood. They are the thieves and robbers Jesus spoke of who were responsible for the FALL OF MAN.

Christians do not realize that Jesus came to save, teach and rescue his people who appear to be on a reincarnation cycle today to get it right and to make a difference on earth. MANY OF US ARE THIER DESCENDENTS that have come back into the world to become the "Meek Who Will Inherit the Earth" soon. Many of us will be saved/rescued and protected soo as events on earth get worse,.

It appears that almost all varieties of extraterrestrials most people see are CYBORGS.

CGI IMAGES

They are the demonic inorganic mechanical intelligence that ancient pagan Gnostics referred to as "artificial man" or the "archons".

It appears that these archons are walking among us today as Jesus warned. They are the "Evil Powers and Principalities of the Air. The real rulers of the earth as Jesus and Paul stated.

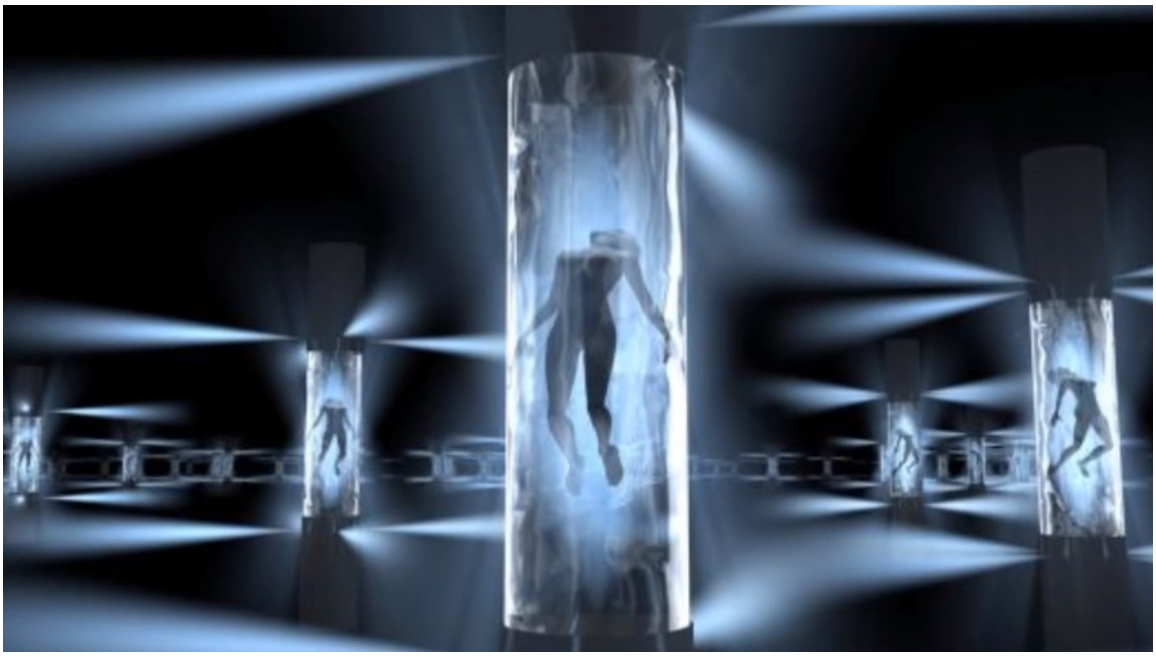
The creation of ARTIFICIAL MAN

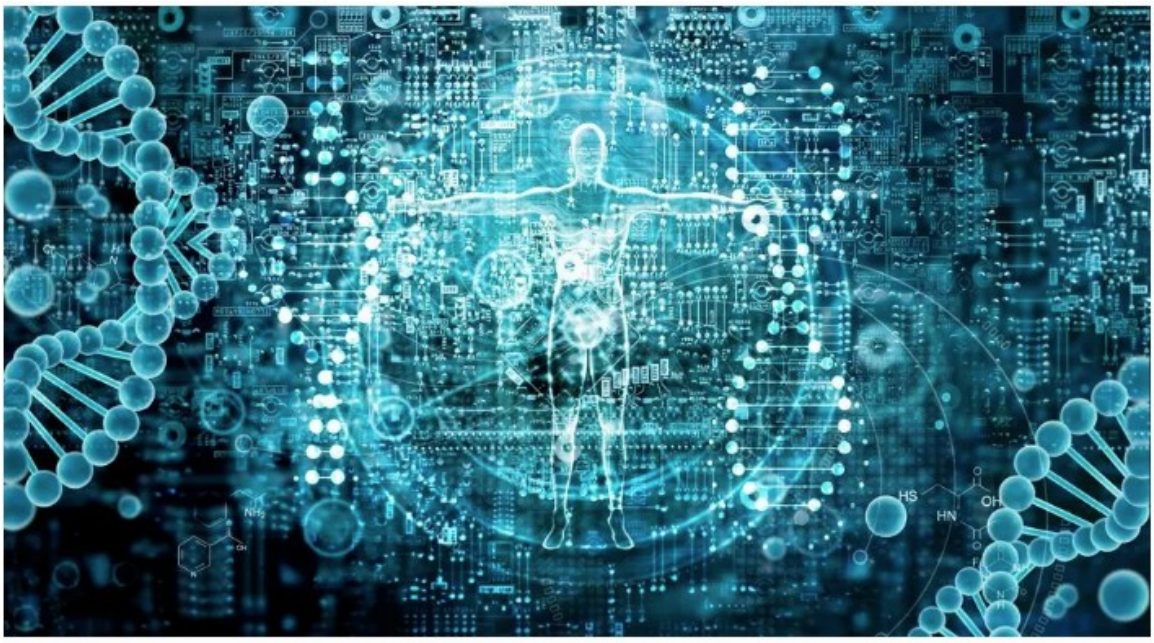


It appears that these so called aliens aka archons are the worker bees for demonic beings who engineered them. These archon aliens appear to be the ones abducting people installing implants in them and manipulating their DNA.

3D CGI IMMAGES

I have never seen a UFO nor have I encounter an artificial cyborg of any kind yet those who do are terrified of them.

Those who see the Nordics seem to imply that they are beautiful yet odd, robotic and seem to be programmed with all sorts of technologies to control us and protect themselves.



Scholars suggest Human DNA shows signs

of being an Invasive Extraterrestrial Parasite

"Many scientists have documented that over 95% of Human DNA does not have a known purpose. This DNA has been colloquially referred to as "Junk DNA".

Up to 97% of the human genetic information (DNA) is seemingly needless, repetitive "junk" - only about 3% is known to generate proteins, deserving the name "gene". The rest used to be called "junk DNA", lately renamed as "non-coding introns", sometimes labelled by the mysterious, though not very explicit description that these self-similar strands "regulate gene expression". LINK

However, other researchers have not been content to simply classify this predominant part of DNA as "one of life's mysteries". Scholarly groups at the forefront of investigative researchers are gathering details which suggest that DNA may not substantively exist as a "building block of life". Rather, it appears that the substantive function of DNA is to act as a "parasitic inhibitor" and "regulator" of life on planet Earth.

Dr. John Lash documents, for example, in metahistory.org:

Recent work by Russian biologist Piotr Garjajev and some Russian linguistic experts suggests the same thing, and, more specifically, this research may show that junk DNA, rather than being a discard, is “a computer hologram that works with laser-type radiations.” In short, DNA is an extraordinary generator of perceptions, an instrument of virtual reality.

By accepting the link between DNA and emotional and mental activities, we may begin to imagine DNA as a complex program that directs the life process (regulating our metabolism, for instance), but impedes our consciousness from complete manifestation. LINK

Research testimony that includes ancient representations, suggest **that DNA was implanted in humanity by Manipulative Extraterrestrials. The fact that over 95% of DNA does not support vital biological living processes suggest that it is conceivable for biological life to exist without any DNA.**

More than 95 % of all DNA, had been first called "Junk DNA" by molecular biologists, because they were unable to ascribe any function to it. They assumed that it was just "molecular garbage". But, if it were "junk", the sequence of the "syllables", i.e. the nucleotides in DNA should be completely random. However it has been found that the **sequence of the syllables is not random at all and has a striking resemblance with the structure of language (ref. Flam, F. "Hints of a language in junk DNA", Science 266:1320, 1994), that is alien to humanity. Scientists now generally believe that this DNA must contain some kind of coded information.**

You might wonder, what understanding of our human origins could account for the parasitic implanting of DNA into

biological life on planet Earth? Indeed, this further inspires the question; who are we? What are our origins; why do we exist' and from that context, where are we going? For starters, it is vital that we as humanity begin to question the "understandings" of reality, that have been **presented to us, by elites who have been documented time again, for spinning a "web of deceit"**. In this context, it is also correspondingly vital to critically consider prospective new insights, irrespective of how much the Establishment responds with denial.

The existence of historical and on-going Extraterrestrial contact with Earthbound humanity, has been at the forefront of this denial. Indeed, the alleged contactees of both Manipulative and Ethical Extraterrestrials offer insights into a context of genetic manipulation within biotic life on Earth.

The article titled "Scholars suggest Extraterrestrial-like DNA fractals floating in the Human Gene Pool" explored fractals as evidence that **Manipulative Extraterrestrials may have sought to genetically manipulate and control humanity**. LINK. A group of researchers associated with Fractogene.com document these apparent similar artificial "fractal signatures" across different biotic life forms on Earth:

This uncertainity if "junk DNA" is really "junk", that caught some scientists by surprise, is now history. Indeed, scientists were never quite sure that any part of DNA could be discarded outright, and even the question was raised **if introns might play a role in evolution,** see Mattick, 1994., Klyce, 2002). The bombshell of the 5th of December issue of the highly reputed Nature 420, 509 (2002) revealed that the 99% of the genes of the mouse have direct equivalents with the humane genes. What does this mean?

FractoGene's pending patent, conceives life on Earth as being linked to a fractal elaboration of a gene by its introns (the fractal model of Purkinje cell was published by

Pellionisz, 1989). In so doing, Fractogene seems to have stumbled upon "introns" as **Manipulative Extraterrestrial signature of the demonic inorganic mechanical intelligence that ancient pagan Gnostic referred to as "artificial man" or the "archons".** Introns, derived from the term "intragenic regions" and also called intervening sequence (IVS), are DNA regions in a gene that are not translated into proteins.

Many studies have documented evidence that **introns are either directly or indirectly involved in cancer causation, and other diseases. Mutations in the introns have been specifically linked to cancerous "tumorigenesis progression."**

Among the many other intron genetic variations that have been linked to cancer (in this case lung cancer) is a K-ras intron variation involving tandem repeats in the H-ras 3'-untranslated region. Mutations in introns may influence neoplasm development because mutations that occur in introns (or in the DNA sequences that flank the gene) can affect the various steps required for normal expression of the gene even though the intron codes may not be detectable by studies of the protein product of the gene. If the defective expression of a gene product is a tumor suppressor gene or a proto-oncogene, cancer may result."

PROOF AND PATIENTS
Below

http://admin.worldviewweekend.com/news/article/former-pfizer-employee-and-whistleblower-reveals-horrifying-new-patent-will-connect

The United States government is quietly cooperating with a 38-nation international organization to train the U.S. population for the "appropriate" human interaction with artificial intelligence in a plan that will ultimately connect people's bodies together in "networks," tracking and monitoring them via an internet connection.

Karen Kingston, a former Pfizer employee, consultant to the pharmaceutical industry and mega-whistleblower, in a bombshell interview with ***Brannon Howse Live***, exposed a recently approved U.S. patent that proves there is more to the government's obsession with getting every man, woman and child injected than just an attempt to inoculate against a virus.

Kingston revealed that the U.S. Department of Defense and the U.S. Department of State are involved in research and propaganda efforts driven by a desire to merge humans with machines, the very essence of *transhumanism*.

So far, 90 percent of the Covid "vaccines," which use advanced gene-based technology to deliver a toxic spike protein to human cells, have been deployed in 10 nations within the mostly Western or "free world."

Those are the same nations being targeted for death and ill-health, Kingston said.

And the health impact of the injections are being tracked by the Joint Artificial Intelligence Center [JAIC], a little-known sub-agency within the U.S. Department of Defense.

"And they did a specific analysis on those 65 and older and came up with algorithms on who should be injected and who should be given the booster," Kingston said. "So, you have to wonder, why was that happening?"

Kingston thinks she's found the answer. It lies in **Patent Number20210082583**, applied for in March 2021 and granted on Aug. 31, 2021.

The abstract for this patent application says this technology is applicable to all *currently available Covid vaccines*, and describes a situation in which injected persons are wirelessly connected with apps and servers.

"I think people are going to be horrified at what's in this patent: To use vaccines, to use advanced technologies to create user IDs, and you are then able to share that data with other people on your network who have this artificial intelligence in them and then it would go to a server and to apps," Kingston said.

In fact, the U.S. government is already prepared for integrating into American society existing technology that will connect people's bodies to the internet and allow them to interface with artificial intelligence.

Just last week, on Oct. 5, U.S. Secretary of State Antony Blinken traveled to Paris to address a conference of the Organization for Economic Cooperation and Development. This is the international body, made up of 38 member states, that has taken upon itself to draft rules and set standards for how humans interact with artificial intelligence.

Blinken, in his Paris speech, revealed that the Biden administration is working to place the U.S. and its entire population under the authority of this global body.

Should anyone think this sounds too much like science fiction, Kingston cited another patent, **Number 20120265001**, for a "composite magnetic nanoparticle drug delivery system for targeted controlled release of therapies."

"And the images in this patent match up to the images that physicians have seen when they see this material [from the Covid serum] reflecting light in this pattern [under a microscope]."

There are four lipids that make up the lipid nanoparticles to release the spike protein, she said.

The international organization Blinken addressed on Oct. 5, the OECD, issued a joint statement on artificial intelligence.

In June 2019, the 38 member countries of the OECD agreed on a **set of AI principles**.

"Karen, they have a commitment, if you listen to Blinken continue on in his speech, he talks about them being a 38-member group, not the U.S., and every time they mention AI they say it's trustworthy," said Howse. "...And part of their initiative is to get 70 percent of the world vaccinated by 2022, and Biden has committed to this as well."

On Oct. 8, the OECD announced a deal to **create a minimum 15-percent global tax** on corporations to support the new digital economy, to which **136 nations, including the United States, agreed**. This is supposed to address the "tax challenges" of a globalized digital economy, according to the OECD website, OECD.org,

Unvaxed at Risk from Vaxed in Coming Dark Winter – Karen Kingston

Karen Kingston is a medical analyst that researches a wide variety of things in the medical world. She's an expert in getting new drugs and medical devices approved and pass regulatory hurdles. She researched the drug patents for the CV19 vaccine and says the unvaxed are at serious medical risk form the vaxed. Kingston explains, "If you take a look at the biological license approval for Pfizer, it specifically explains that Comirnaty is a nucleoside-modified messenger RNA. What is that? That is a man-made genetic material that coats the spike protein of SARS COV 2. So, people who are injected are producing trillions of the disease causing spike protein, and they can infect other people. This was documented in the August 2015 document by the FDA called 'Viral Based Gene Therapies' and shedding analysis and design studies. This is what's called a viral gene based therapy, and it's very well documented by the FDA. . . . That is clear evidence that they knew the shedding would occur."

This is so insidious that the FDA is well aware of unvaxed pregnant women. Kingston says, "Not only can you get sick, but if you get pregnant and are around someone who is vaccinated, that could result in the death of your baby, your baby dying within one month of being born, birth defects and autoimmune disease over its lifetime. That is horrifying."

Kingston says there are also cases of vaxed parents infecting their unvaxed children. Kingston says, “If you look at the weekly morbidity and mortality reports from the CDC in August, they showed . . . that there was a major spike in cases of hospitalization in children between 1 and 4 years old, then 5 and 12, and 12 to 18 beginning in January and going up very quickly. Well, the children were not supposed to be vaccinated. That’s correct–the parents are. As parents get more and more vaccinated, the children, particularly 1 to 4 year olds, are the highest spike in hospitalizations due to Covid. Children never got Covid before. What they are getting is Covid from their parents being vaccinated.”

Kingston gives ways to minimize the risk for the unvaccinated and also some help for the vaccinated with a supplement called NAC.

Kingston says the world needs to wake up to the extreme and contends, “This is absolutely unlawful, and I just can’t believe parents, police officers, healthcare providers and our government are just standing by and basically letting a conspiracy to commit aggravated assault and murder on our children and employees. I am tired of people saying this is conspiracy theory, it’s unproven. It’s not. All these documents are available on the FDA, NIH and USPTO.gov.”

One thing is for sure, more and more vaxed people and some unvaxed people are going to get sick, and many will also die from the vaccines forced on the world. Can it be avoided? Kingston says, “I think there is a way to avoid this to get the truth out there and to start treating people. Otherwise, yes, let’s heed the words of Dr. Fauci, this time and this time only, which is that we are in for a dark winter.”
